Mr. Douglas Bosco
California Coastal Conservancy
1330 Broadway, 13th Floor
Oakland, CA 94612

Dear Mr. Bosco:

I am writing to express my support for the City of Petaluma's application to the Coastal Conservancy for the San Francisco Bay Area Conservancy Program to rehabilitate the Downtown Railroad Trestle in Petaluma. The trestle, which is located on the Petaluma River in Historic Downtown, is a historically significant resource to the City of Petaluma.

It is my understanding that funding for this project will support the design and construction necessary to rehabilitate the 80-year old trestle. The rehabilitation effort will include bank stabilization measures, habitat enhancements and the completion of the River Trail. This project is an important step forward in increasing public access to the trestle and educating the public about the historical and environmental significance of the river.

I support the Downtown Railroad Trestle proposal and believe this project will greatly benefit the City of Petaluma. I urge you to give this application your full and careful consideration. If you have any questions or comments, please contact my grants coordinator, Chris Rogers, in my Santa Rosa office at (707) 542-7182.

Sincerely,

Lynn Woolsey
Member of Congress

Re: Support of the City of Petaluma's application to the Coastal Conservancy for the Bay Program Grant for the rehabilitation of the Downtown Trestle

Dear Chairman Bosco:

I am writing to support the City of Petaluma's application to the Coastal Conservancy for grant funding through the San Francisco Bay Area Conservancy Program (Bay Program) to rehabilitate the City of Petaluma's Downtown Railroad Trestle. The Trestle, which is located on the Petaluma River, in the Historic Downtown area is a historically significant resource to Petaluma.

The City of Petaluma is requesting funding for a design and construction project to rehabilitate the 80-year old dilapidated trestle structure to accommodate loading capacity for a passenger trolley, bank stabilization measures, habitat enhancement, completion of the River Trail and an educational component that will tie in both the history of the structure and the importance of the River ecosystem. The Bay Program grant is important to the rehabilitation of this historic resource, because it will assist in the removal of blight along the Petaluma River and preserve the existing natural resources.

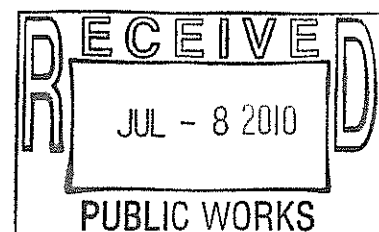

Thank you for your consideration of this important project for the residents of Petaluma within my district. If you have any questions, please contact my district office at 415-479-6612 or via my website at www.sen.ca.gov/lento.

Sincerely,

A handwritten signature in black ink that reads "Mark Leno".

Mr. Doug Bosco, Chair
California Coastal Conservancy
1330 Broadway, 13th Floor
Oakland, CA 94612-2530

Dear Chairman Bosco:

I am writing to express my continued support for the application by the City of Petaluma to the Coastal Conservancy for the San Francisco Bay Area Conservancy Program (Bay Program) to rehabilitate the City of Petaluma Downtown Railroad Trestle.

The Trestle is located on the Petaluma River in the Historic Downtown area and is a historically significant resource to the City and surrounding community. The City of Petaluma is requesting these funds for design and construction to rehabilitate the 80 year old and now dilapidated trestle structure, including bank stabilization measures, habitat enhancement, completion of the River Trail and an educational component that will integrate the history of this particular structure and the importance of the River ecosystem.

The Bay Program grant is important to the rehabilitation of this historic resource, the removal of the blight it causes along the Petaluma River and the preservation of the existing natural resources. This project is consistent with the goals of the Bay Program, and I urge you to approve the request for funds.

Thank you for your consideration.

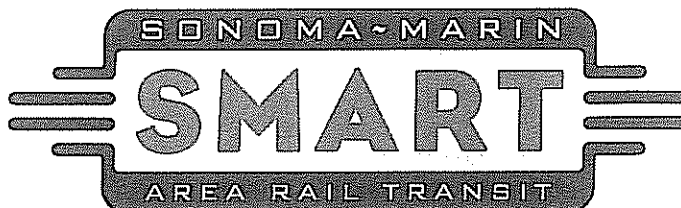

Sincerely,

JARED HUFFMAN
Assemblymember, 6th District

Re: Coastal Conservancy Grant for the Waterfront Trestle

Dear Mayor Torliatt:

I am writing to provide our support for the Coastal Conservancy Grant that the City is pursuing for the environmental and design work for the rehabilitation of SMART's trestle along the Petaluma turning basin.

SMART fully supports this project and is prepared to commit staff time to participate in the project. We envision participating in the consultant selection process, design coordination meetings and reviewing reports and drawings.

We look forward to supporting the City's efforts to renew this important asset.

Sincerely,

Friends of the Petaluma River

Celebrate and Conserve

Mr. Douglas Bosco – Chairman
California Coastal Conservancy
1330 Broadway, 13th floor
Oakland, Ca. 94612

August 4, 2010

Dear Mr. Bosco and members of the Coastal Conservancy;

I am writing in support of the grant application by the City of Petaluma for funds to restore the historic railroad trestle in downtown Petaluma, adjacent to the Petaluma River turning basin. As a leading advocate for River access, appreciation and conservation Friends of the Petaluma River is aware of the key role the trestle played in connecting people to the River in the past and looks forward to it resuming that role in the future.

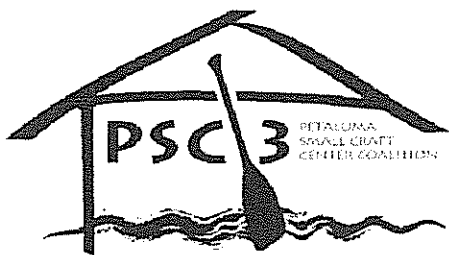

The Railroad trestle is a community asset that is most worthy of restoration, as it played a key role in the commercial and cultural fabric of Petaluma for decades. Unfortunately, like many unused historic assets it has fallen into disrepair. To lose it would be to lose an important piece of the River's and the region's cultural heritage. Petaluma is where San Francisco Bay maritime traffic connected with North Coast Railroad traffic to move raw materials, manufactured goods, and people throughout Northern California before the arrival of bridges. This is an important story that we plan to tell in the River Heritage Center (RHC) that Friends is creating in nearby Steamer Landing Park (map attached). In fact, in partnership with Friends, the City of Petaluma has recently submitted a grant application to Ca. State Parks to help fund that center. Part of the RHC plan is to connect downtown Petaluma to the proposed S. F. Bay Water Trail and existing S. F. Bay hiking trail by providing riverfront docks, camping amenities, and nature education facilities just down the River from the turning basin.

The California Coastal Conservancy has already invested generously in the natural and cultural resources of Petaluma by providing funding to help purchase property and build trails at our new Ellis Creek Water Recycling Facility, Tolay Lake Regional Park, and the San Francisco Bay Trail; for which we are most grateful. Funding to restore the railroad trestle in downtown Petaluma would help to connect this wonderful "string of jewels" to the North Bay's historic confluence of maritime and rail commerce, adding to your legacy of providing valuable regional assets for future generations to enjoy.

Sincerely;

David Yearsley – Executive Director

TO: the Directors and Staff of the California Coastal Conservancy

RE: Petaluma Trestle Rehabilitation Project

Please support the City of Petaluma's application for funding for rehabilitation of its waterfront trestle at the downtown Turning Basin. This pedestrian and trolley corridor is a critical feature in the Petaluma River Access and Enhancement Plan.

When completed, the trestle will link the Turning Basin and upstream features with other local and regional pedestrian and cycling pathways, which in turn link up to regional trail networks such as the Bay Trail and the Bay Ridge Trail. Ultimately, the improved and once again utilized trestle could become one of the gems in the center of a vast network of outdoor and pedestrian-friendly community resources.

As proponents of a central Petaluma boathouse and members of the Petaluma River Access Partnership, the Petaluma Small Craft Center Coalition (PSC3) is excited by the prospect of these long-overdue improvements. We urge the Coastal Conservancy to look favorably on the city's grant application, and help the community complete this much-needed improvement.

Sincerely,

Greg Sabourin

Subject: SF Bay Trail Support for City of Petaluma's "Downtown Trestle Rehabilitation Project"

Dear Ms. Ramirez:

The Bay Trail Project is a nonprofit organization administered by the Association of Bay Area Governments (ABAG) that plans, promotes and advocates for the implementation of a continuous 500-mile bicycling and hiking path around San Francisco Bay, with connector trails into downtown areas, neighborhoods, and transit centers. When complete, the trail will pass through 47 cities, all nine Bay Area counties, and cross seven toll bridges. To date, slightly more than half the length of the Bay Trail alignment has been developed.

The Bay Trail Project is pleased to support the City of Petaluma's efforts to secure grant funding for the above-referenced project. While the officially adopted Bay Trail connector in Petaluma runs from Port Sonoma Marina to Shollenberger Park and does not currently include the segment north into downtown, we have on file an official request from the City to adopt this section of trail. Bay Trail Project staff enthusiastically supports this request and will be bringing the item before the Steering Committee this summer as part of a major realignment of the Bay Trail in Sonoma County.

Connecting the spine of the Bay Trail at Port Sonoma Marina with the revitalized riverfront in downtown Petaluma will benefit ABAG's Bay Trail Project and the City of Petaluma equally. We hope that the Coastal Conservancy is able to fund this important piece of infrastructure. If you have any questions regarding the current or future Bay Trail alignment in this area, please do not hesitate to contact me at (510) 464-7909 or by e-mail at maureeng@abag.ca.gov

Sincerely,

Maureen Gaffney
Bay Trail Planner
